Speech & Language Therapy Caseload

■ On caseload

■ Adult SaLT caseload

■ Pupil held on file without current/active involvement

Information provided to enable understanding of Speech & Language caseload division

- **Capacity:** 42 students (under 18) on active SaLT caseload which is at capacity (based on current agreed SaLT hours).
- **Staffing:** : Annabelle covers 22 students in secondary and post-16. Wendy covers 16 students in primary. Megan Critchlow covers 4 students in primary. For 2018-19, extra revenue has been secured: out-of-area money has been allocated from the CCG and £2000 of Year 7 catch up money from Springwater, which has resolved the immediate capacity issue. Longer-term, a Service Level Agreement (SLA) should be commissioned so as the school grows, so does the therapeutic input.
- **SLCN group** meets termly. Led by Andrew Sudron, with Wendy Brotherton, Annabelle Calpin, Peter Manning, Kelly Simpson and Sandra Lai. Working on the School Development Plan to improve communication standards across the school. Needs budget for resources and staff time in order to drive forward change.
- **Feeding initiative:** working with NYCC, Sarah Edwards, Ruth Outhwaite (Chef) and Wendy to meet the needs of students on modified diets more effectively. £500 of equipment purchased by NYCC including industrial blender and flight trays (food sectioned separately on plastic plates). Food now pureed separately (e.g. just salmon, just carrot, just potato). Meetings on hold due to Ruth's illness. Feeding Clinics have restarted with dietetic, nursing and SaLT input termly
