

Funny Monster Guess Who?

Cut out the funny monsters and choose a colour, purple or blue. Purples begin by secretly choosing one monster. Hold this card in your hand and don't let your partner see. Blues lay out your monster cards face up and use questions to find out which monster your partner has chosen.

Your questions could be:

Does your monster have spots?

Does your monster have wings?

Is your monster green?

Based on what your partner says, turn over your monster cards until one remains facing up. Your partner can now reveal their monster. Did you guess it right?
