

Springwater Youtube Chanel

Our new Youtube Channel can be found by clicking the link below:

<https://www.youtube.com/channel/UCtnqVR3a2UkExtBB0oWGd1w>

We have created a Springwater YouTube channel for all of our students to stay connected, entertained and be part of school life from the comfort of their own home during this challenging time.

Videos will be recorded by different teachers daily and these may vary from singing, arts and crafts, a daily joke or greeting, activities to try at home and fitness workouts.

We encourage our students to comment and interact with the channel safely with supervision from parents

If you would like your child to be able to participate and interact with school and other students watching, you will need to set up a YouTube account if you do not already have one.

You are then able to comment, reply with videos with pictures of your child work or an activity that they may doing set by the teacher and upload into the comments.

In doing this you automatically are adhering to the YouTube safe content policy which you can read on their site and give permission for us to possibly mention them in the next video. If you do not want your child to be mentioned, please do not comment.

Guidelines for using YouTube are found on their terms and conditions

<https://www.youtube.com/about/policies/#community-guidelines>

In addition to this we have created a set of quick and easy to follow guidelines.

Interacting Guidelines:

Users should refrain from using people's full names in comments and replies.

Comments should not include where people live, phone numbers or any other personal information such as email addresses

We want to see you all interact and comment but please make sure your comments don't include any bullying, unkind words, swearing or abuse of any kind

If you send pictures or videos of yourself and/or your work please ensure you are dressed appropriately

We hold the right to take down any comments, picture or videos that do not follow these guidelines.

If you reply, comment, send pictures or videos we may mention you in our next video so ensure you are happy with this before posting.

Parents can turn on restricted mode to ensure their child is watching age-appropriate content.
